Clark County Assessment Summary: As of Nov. 9, Clark County had a case rate per 100,000 of 701 and a test positivity rate of 11.1%. Clark County reports their access to PPE is steady. Testing capacity, case investigation and contact tracing and efforts to protect vulnerable populations have also been sufficient. Clark County opened an additional Community Based Collection Site at City of Mesquite will also provide additional community-based testing. Clark County has increased communication and promotion of the COVID Trace app.

CDC/State of Nevada Recommend Face Masks: The CDC continues to advise face masks for those with respiratory conditions to prevent the spread of illnesses. Additionally, studies show that a significant portion of individuals with coronavirus lack symptoms and can transmit the virus to others before showing symptoms. Therefore, the CDC now advises the use of simple cloth face coverings in public settings where it may be difficult to maintain the recommended 6-foot social distance such as grocery stores or pharmacies. This is a voluntary public health measure recommended to slow the spread of the coronavirus and help people who may have the virus and do not know it from transmitting it to others. The cloth face coverings recommended are not surgical masks or N-95 respirators. Those are critical supplies that must continue to be reserved for healthcare workers and other medical first responders, as recommended by current CDC guidance.

**Those most at risk of contracting coronavirus:**

According to the CDC, some people are at higher risk of getting very sick from this illness. This includes:

- Older adults
- People who have serious chronic medical conditions like:
- Heart disease
- Diabetes
- Lung disease

**Precautions you can take to avoid contracting coronavirus include:**

- Practicing basic hygiene is the single-most effective way to prevent the spread of all communicable diseases, including COVID-19.
- Wash your hands frequently with soap and water for at least 20 seconds.
- If soap and water are not available, use an alcohol-based hand sanitizer.
- Avoid touching your eyes, nose and mouth with your hands.
- Avoid close contact with people who are sick.
- Cover your mouth when coughing.
- Sneeze using a tissue and throw the tissue in the trash immediately following use.
- Get a flu shot.
- If you get sick, please stay home from work, school or other places where you are in close frequent contact with other people.
- Clean and disinfect frequently touched "community" objects and surfaces.

Visit the Southern Nevada Health District website for local updates and current information from the U.S. Centers for Disease Control and Prevention. The public can call the Health District's Information Line at (702) 759-INFO (4636) with questions about coronavirus, 9 a.m. to 5 p.m., Monday-Friday.

**Additional AKC recommendations:** The following is a list of suggested best practices that may be helpful when attending an event.

1. Practice social distancing consistent with current guidelines.
2. wearing masks and disposable gloves.
3. Wash hands as frequently as possible. Have disinfecting spray.
4. Avoid touching dogs that are not your responsibility.
5. when an exhibitor is done for the day, they should leave the building in order to minimize congregating.
